## FTDES - ftdes.net - 2025

## Overview:

Developed and deployed a multilingual WordPress website for the Forum Tunisien pour les Droits Économiques et Sociaux (FTDES) — a leading Tunisian NGO focused on social and economic rights. The website serves as a dynamic platform showcasing FTDES's research, publications, and news on issues such as social justice, unemployment, migration, and economic policy. Built entirely with Elementor, the project was completed in record time with a focus on speed, structure, and scalability.

## Contributions:

- Designed and implemented a clean, multilingual site architecture (Arabic, French, English) to ensure accessibility for diverse audiences.
- Developed the entire platform using only 10 plugins, achieving exceptional performance despite hosting over 1,500 posts.
- Migrated all legacy content — including posts, categories, and media — via FTP and custom SQL queries, successfully recovering data from a broken old site.
- Managed the full deployment process, including server setup, SSL configuration, and domain integration.
- Completed the entire build and migration process in just one day, ensuring zero downtime for the organization's online presence.

## Key Outcomes:

- Delivered a fast, modern, and stable website for one of Tunisia's most respected NGOs.
- Successfully recovered and preserved over 1,500 valuable posts and media assets from a failing legacy system.
- Enhanced performance and reliability with a lightweight, optimized WordPress environment.
- Provided a multilingual, responsive design to reach both local and international audiences.
- Achieved a complete redesign, migration, and deployment in under 24 hours — demonstrating technical efficiency and precision under tight deadlines.

## AI Forum - al-forum.org - 2025

### Overview:

Developed and deployed a multilingual WordPress platform for AI Forum, an online community and knowledge hub created for social activists in Tunisia under FTDES. The website serves as a secure digital space where members can share their work, opinions, and initiatives in Arabic, French, and English. Built entirely with Elementor and advanced social interaction tools, the platform fosters collaboration and privacy for its community.

### Contributions:

- Designed and structured the complete site architecture, including multilingual pages, member areas, and discussion spaces.
- Implemented community and social features such as user profiles, activity feeds, private groups, and secure member communication.
- Integrated an AI-powered assistant trained on over 1,300 posts from AI Forum, allowing users to ask questions and receive context-aware answers about FTDES activities and topics.
- Ensured full mobile responsiveness and optimized performance for smooth interaction across devices.
- Applied SEO fundamentals and clean URL structure to support multilingual discoverability.
- Managed the full deployment process, including hosting setup, SSL configuration, and domain integration.
- Conducted user training sessions to help moderators and members manage content and interact safely within the platform.

### Key Outcomes:

- Delivered a secure and private social platform tailored to Tunisian activists' needs.
- Empowered the FTDES community with a centralized digital space for dialogue and collaboration.
- Introduced an AI assistant that provides instant, relevant insights based on AI Forum's own knowledge base.
- Achieved seamless multilingual access, making the platform inclusive and widely accessible.
- Enhanced engagement and autonomy through user-friendly design and efficient site management.

## BrainWave 360 – brainwave360.co – 2025

### Overview:

Developed and deployed a fully customized, multilingual WordPress website for Brainwave Consulting, a strategic communication and digital innovation agency based in Tunisia. The platform was built using Elementor, designed to reflect the agency's sophistication, professionalism, and expertise in communication, technology, and artificial intelligence. The website showcases the company's identity, team, client references, and advanced service offerings across Arabic, French, and English.

### Contributions:

- Designed and implemented a complete site architecture covering the company's story, team, services, and client references.
- Created a multilingual framework (Arabic, French, English) ensuring full consistency and readability across all languages.
- Crafted clean, elegant Elementor layouts aligned with Brainwave Consulting's brand identity and communication standards.
- Integrated structured sections for strategic communication, media relations, design, web development, and AI services.
- Optimized performance and responsiveness for seamless browsing across desktop and mobile devices.
- Applied SEO best practices, including clean URL structures, metadata optimization, and language-based indexing.
- Managed hosting configuration, SSL deployment, and domain integration for secure, reliable website access.
- Conducted client training on content management, enabling the team to independently update services, case studies, and articles.

### Key Outcomes:

- Delivered a high-impact corporate website that positions Brainwave Consulting as a regional leader in communication and digital transformation.
- Enhanced the agency's online credibility through a refined, multilingual presentation of its expertise and partnerships.
- Improved performance and accessibility with a responsive, SEO-optimized structure.
- Enabled internal autonomy for updates and content management, reducing long-term maintenance needs.
- Provided a scalable, future-ready digital presence that supports both marketing and business development goals.

## Santas Medical - 2025

### Overview:

Developed and deployed a fully customized, responsive WordPress website for Santás Medical, a healthcare and medical solutions provider. The project was built entirely from scratch using Elementor, ensuring a unique design aligned with the client's brand identity.

### Contributions:

- Designed and structured the complete site architecture (homepage, services, about, contact).
- Created custom Elementor layouts and widgets to deliver a distinctive and professional design.
- Ensured mobile-first responsiveness and cross-browser compatibility.
- Optimized site performance through caching, image compression, and clean code practices.
- Applied SEO fundamentals (metadata, clean URLs, alt text for images) to boost visibility.
- Managed hosting and deployment: purchased hosting server on Hostinger, configured environment, migrated the site, set up SSL certificate, and ensured secure HTTPS access.
- Configured professional email accounts for the client's domain (name@domain.com), ensuring reliable communication and brand credibility.
- Trained the client on WordPress/Elementor to independently update and manage content.

### Key Outcomes:

- Delivered a professional, branded online presence tailored to the medical sector.
- Enhanced site security and trust with SSL and optimized hosting setup.
- Provided the client with domain-based professional emails, reinforcing credibility and trust with customers.
- Improved user experience with responsive design and fast load times.
- Enabled client autonomy in content management, reducing reliance on developers.

# INNOVATIVE TECHNOLOGY FOR SMARTER AND SUSTAINABLE FUTURE

Leveraging the power of space technology and AI, we drive innovation toward a smarter, more sustainable future. Our solutions empower data-driven decision-making by seamlessly integrating ground and satellite data, optimizing resource efficiency, and enhancing climate resilience.

- Delivered a professional, branded online presence tailored to the medical sector.
- Enhanced site security and trust with SSL and optimized hosting setup.
- Provided the client with domain-based professional emails, reinforcing credibility and trust with customers.
- Improved user experience with responsive design and fast load times.
- Enabled client autonomy in content management, reducing reliance on developers.

## Tunisian Solidarity – 2025

### Overview:

Developed and deployed a secure, multilingual WordPress website for an anonymous client supporting Tunisian activists and detainees. The platform, built entirely with Elementor, serves as an informational and solidarity hub, raising awareness and facilitating engagement around human rights and social justice causes in Tunisia. Designed with discretion, performance, and accessibility in mind,

### Contributions:

- Designed and implemented the complete site structure, including awareness pages, resource sections, and secure contact channels.
- Built a multilingual interface (Arabic, French, English) to reach both local and international audiences.
- Crafted custom Elementor layouts reflecting a human-rights-focused visual identity while maintaining a neutral, safe design.
- Applied strict security measures to ensure privacy and protect sensitive information about activists and contributors.
- Optimized performance through lightweight plugins, caching, and clean code architecture.
- Managed hosting configuration, SSL setup, and full deployment, ensuring a reliable and encrypted user experience.
- Ensured responsive design across devices and browsers for maximum accessibility and usability.

### Key Outcomes:

- Delivered a fast, secure, and multilingual platform dedicated to supporting social justice and human rights advocacy in Tunisia.
- Strengthened the organization's digital presence while safeguarding user privacy and data.

## Welcome to Your Creative Home

*Dreamed by Claudia, now nurtured by Claudia and Khalil.*

Tucked away in a quiet corner of northern Tunisia along the Mediterranean coast, our home celebrates presence, connection, simplicity, and eco-conscious living.

Villa Sounine is more than a guesthouse — it's a sanctuary for inspired minds and open hearts.

A place to recharge, to create, and to feel truly alive.

Come to reconnect. Stay to create. Leave transformed.

[https://villasounine.com/wp-content/uploads/2025/04/IMG\\_4039-1.png](https://villasounine.com/wp-content/uploads/2025/04/IMG_4039-1.png)

## Villa Sounine - 2025

### Overview:

Developed and deployed Villa Sounine, a creative showcase website for an eco-conscious guesthouse on Tunisia's northern coast. Built with WordPress and Elementor, the site reflects tranquility, art, and connection through a minimalist, nature-inspired design co-created with a Mexican designer.

### Contributions:

- Designed and structured pages for rooms, gallery, blog, and contact, emphasizing clarity and emotional storytelling.
- Built custom Elementor layouts capturing the villa's artistic, Mediterranean aesthetic.
- Ensured responsive design and smooth navigation across all devices.
- Optimized performance, SEO, and loading speed for an engaging visitor experience.
- Collaborated closely with the designer to translate creative direction into clean, functional web architecture.

### Key Outcomes:

- Delivered a visually poetic website that embodies the villa's identity and values.
- Enhanced visibility and guest engagement through an elegant, performance-optimized online presence.
- Combined artistic design and solid technical structure into a seamless digital experience.

## Eticrowd - 2025

### Overview:

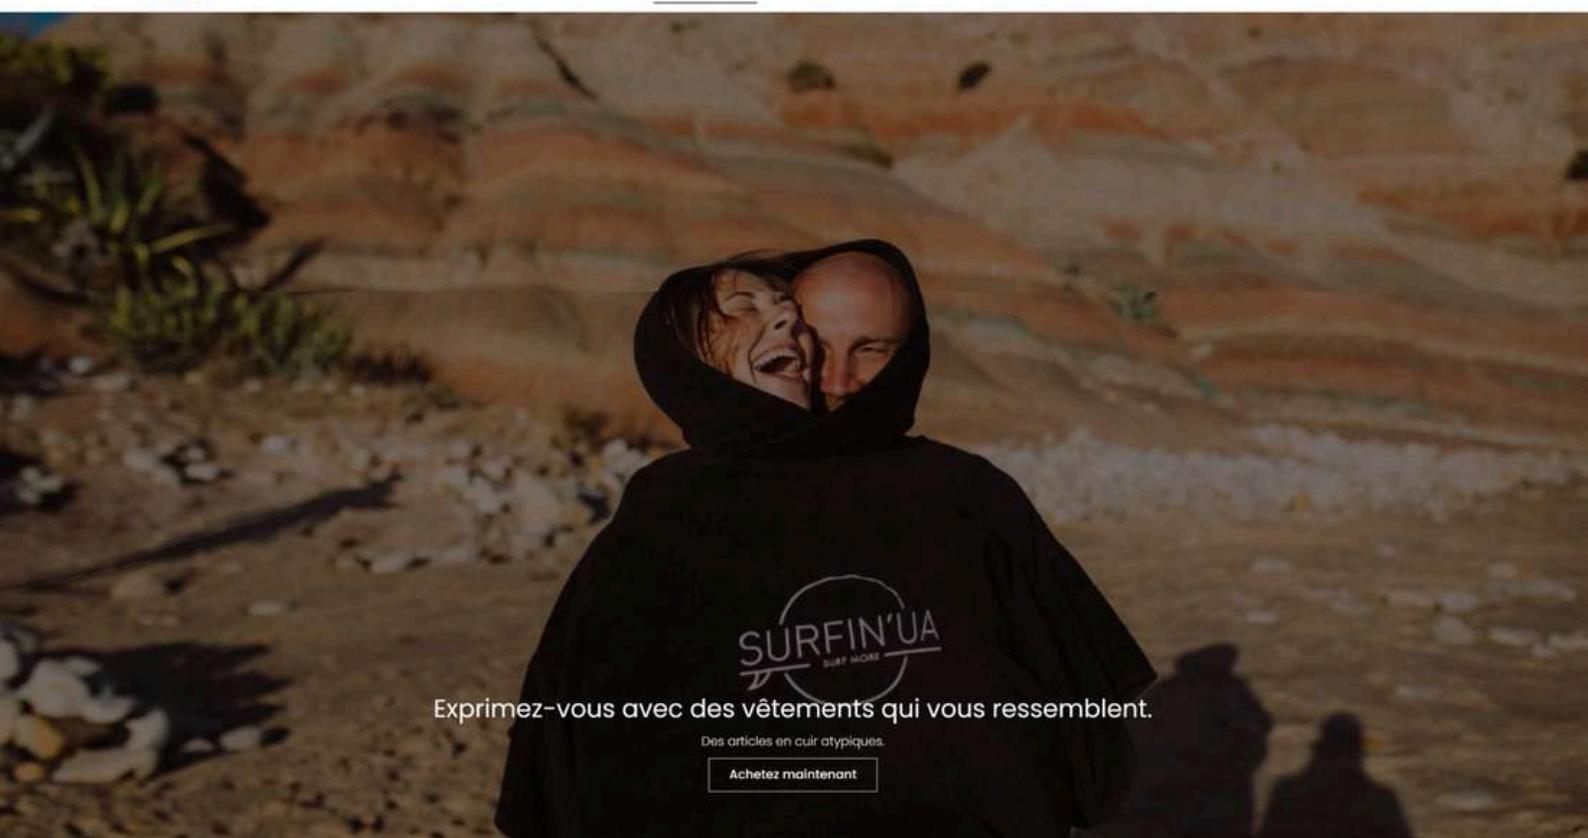

Developed and launched Eticrowd, Luxembourg's first ethical crowdfunding platform by etika asbl, a non-profit promoting responsible and sustainable finance. Built with WordPress, Elementor, WooCommerce, and custom plugin development, the platform enables transparent donation-based campaigns aligned with social and environmental values.

### Contributions:

- Designed and implemented the full multilingual crowdfunding architecture for campaign creation, management, and donation tracking.
- Developed a custom crowdfunding plugin integrated with WooCommerce to handle secure payments and project funding logic.
- Built modern Elementor layouts ensuring clarity, transparency, and strong ethical branding.
- Applied SEO and multilingual best practices for visibility across audiences.
- Optimized site speed, performance, and scalability to support multiple campaigns.
- Managed hosting, SSL setup, and deployment for a secure, compliant environment.

### Key Outcomes:

- Delivered Luxembourg's first donation-based ethical crowdfunding platform.
- Enabled smooth, transparent fundraising for sustainable and social projects.
- Combined clean UX, strong performance, and tailored functionality under a unified ethical brand.
- Provided a scalable, future-ready system adaptable to new campaigns and partnerships.

## Creazone - 2024

### Overview:

Developed a showcase website for Creazone Printing Services using WordPress and Elementor.

The site highlights customizable products like pens, business cards, and branded merchandise.

Integrated a custom plugin allowing clients to design products live on the site. Focused on creating a modern, responsive, and engaging online experience.

### Contributions:

- Designed complete site structure with dedicated product and service pages.
- Built responsive Elementor layouts optimized for clarity and aesthetics.
- Developed a custom WordPress plugin for live product customization.
- Enabled users to upload logos, add text, and preview designs in real-time.
- Configured smooth workflow for orders and design submissions.
- Applied SEO best practices and optimized site speed for fast performance.
- Managed hosting, SSL, and secure deployment.

### Key Outcomes:

- Delivered an interactive, visually appealing printing website.
- Allowed clients to customize products directly, improving engagement and conversions.
- Combined creativity and functionality in a seamless digital experience.
- Provided a scalable platform ready for future product expansion.

## Alexandre Laplace - 2024

### Overview:

Developed and deployed a professional WordPress website for Alexandre Laplace, a sports educator specializing in fitness, strength training, and physical preparation. Built with Elementor, the site showcases personalized coaching programs, nutrition guidance, and flexible in-person or remote sessions.

Designed to highlight expertise, client results, and service offerings in a clean, engaging layout.

Optimized for responsive performance, usability, and clear navigation across devices.

### Contributions:

- Designed full site architecture, including coaching services, testimonials, and program pages.
- Built Elementor layouts that highlight the coach's expertise, experience, and client success.
- Integrated clear sections for personalized coaching: in-person, dietary, remote, and single sessions.
- Developed responsive, mobile-first design for smooth browsing on all devices.
- Applied SEO best practices to improve visibility and client acquisition.
- Configured contact forms and call-to-action elements for easy program enrollment.
- Managed hosting, SSL setup, and secure deployment for a reliable site experience.

### Key Outcomes:

- Delivered a professional, engaging website reflecting Alexandre's coaching philosophy.
- Increased visibility and credibility through clear service presentation and client success highlights.
- Enabled flexible client interactions with easy access to coaching options and personalized programs.
- Provided a scalable platform ready for future content, services, and updates.

## Star Store - 2024

### Overview:

Developed and deployed Start Store, a WordPress e-commerce platform for selling computers and laptops. Built with Elementor, WooCommerce, and a custom configuration plugin, the site allows users to build their own PCs from components listed on the platform. Designed for intuitive shopping, fast performance, and responsive display across all devices.

### Contributions:

- Designed and structured the full e-commerce architecture, including product pages, categories, and checkout.
- Built responsive Elementor layouts emphasizing usability and product visibility.
- Developed a custom plugin for users to configure computers using available components.
- Integrated WooCommerce for product management, secure checkout, and order tracking.
- Applied caching, database optimization, and image compression for fast site performance.
- Implemented SEO best practices for better search visibility.
- Managed hosting setup, SSL deployment, and secure site launch.

### Key Outcomes:

- Delivered an interactive, high-performance online store for computer sales.
- Enabled customers to customize PCs directly on the site, improving engagement and conversion.
- Achieved smooth UX and fast loading times despite complex product configurations.
- Provided a scalable and maintainable platform ready for future expansion.

## Media Path - 2024 - Hackathon Winner of 5000\$

### Overview:

Developed Media Path, the winning solution of a 2024 hackathon for journalists, awarded \$5,000. Built with WordPress and Elementor, the platform integrates AI tools to enhance journalism workflows, including hate speech detection, legal advice, SEO optimization, and automated image and graph generation — all developed within 24 hours.

### Contributions:

- Designed and structured a fully functional, responsive website during the 24-hour hackathon.
- Built Elementor layouts for clear presentation and usability.
- Developed AI-driven tools for detecting hate speech in articles.
- Integrated AI features for legal advice, SEO enhancement, and automated content visuals.
- Optimized performance to handle real-time content analysis.
- Ensured smooth UX and accessible navigation for journalists.
- Managed rapid deployment and testing under tight hackathon constraints.

### Key Outcomes:

- Delivered a fully functional, AI-powered journalism platform in just 24 hours.
- Enabled journalists to detect harmful content, generate visuals, and improve SEO instantly.
- Won the hackathon and \$5,000 prize for innovative and practical AI integration.
- Demonstrated rapid development skills combining technical, design, and AI expertise.

## Lataklak V1.0 - 2024

### Overview:

Developed Lataklak v1.0, a website for the law consulting agency of influencer Lataklak. Built with WordPress and Elementor in just 12 hours, the site presents legal services, agency information, and contact options in a clean, professional layout.

### Contributions:

- Designed and structured the complete site architecture under tight time constraints.
- Built responsive Elementor layouts optimized for clarity, usability, and brand identity.
- Configured service pages, contact forms, and client engagement sections.
- Applied SEO fundamentals and clean URL structures.
- Ensured mobile-first responsive design and cross-browser compatibility.
- Managed hosting setup, SSL, and secure deployment.
- Delivered a fully functional website in a single day.

### Key Outcomes:

- Delivered a professional law consulting website in only 12 hours.
- Provided a clean, user-friendly platform for clients to explore services.
- Strengthened Lataklak's online presence and credibility.
- Demonstrated rapid development skills under extreme time constraints.

## Space Fiit - 2024

### Overview:

Developed Space Fiit, a modern Tunisian fitness and equipment e-commerce website built with WordPress, Elementor, and WooCommerce. Designed for simplicity and accessibility, it offers a smooth shopping experience with integrated local online payment systems.

### Contributions:

- Designed a clean, responsive store layout focused on usability and fast navigation.
- Configured WooCommerce for fitness product listings, orders, and digital payment flows.
- Integrated Tunisian payment gateways for secure, verified online transactions.
- Optimized site performance with caching and image compression.
- Applied SEO and mobile-first design principles.
- Ensured intuitive UX for all user types.
- Managed hosting setup, SSL certification, and deployment.

### Key Outcomes:

- Delivered a fast, user-friendly e-commerce platform tailored for Tunisian users.
- Simplified online purchasing with integrated local payment systems.
- Enhanced brand credibility through professional design and secure checkout.
- Provided the client with a scalable and maintainable fitness e-commerce solution.

## Lux Mall Badr City – 2023

### Overview:

Developed Lux Mall Badr City, a demo website created entirely with Elementor to teach a friend advanced Flexbox techniques and modern layout design.

### Contributions:

- Designed and structured responsive layouts using Elementor's Flexbox container system.
- Demonstrated best practices for spacing, alignment, and adaptive design.
- Built homepage and product showcase sections for learning purposes.
- Focused on visual hierarchy and flexible grid organization.
- Implemented clean typography and consistent color balance.
- Optimized responsiveness across devices without plugins.
- Guided hands-on learning and step-by-step building process.

### Key Outcomes:

- Delivered a fully functional demo website for training purposes.
- Simplified complex layout concepts through practical Elementor examples.
- Helped the trainee master Flexbox-based responsive design.
- Showcased Elementor's capabilities without using additional plugins.

## Transforme sua beleza, transforme sua vida!

## Porque escolher a

### Lotus estética - 2023

#### Overview:

Developed Lotus Estética, a Spanish-language beauty and wellness website built with WordPress and Elementor, highlighting the clinic's premium aesthetic care services through elegant design and clear messaging.

#### Contributions:

- Designed a warm, modern layout reflecting the brand's focus on self-care and well-being.
- Structured pages for services, team, and contact with intuitive navigation.
- Created responsive Elementor sections optimized for mobile and tablet viewing.
- Implemented smooth scrolling and visual storytelling with custom animations.
- Integrated appointment booking and WhatsApp contact features.
- Ensured multilingual compatibility for future expansion.
- Optimized for fast loading and strong SEO fundamentals.

#### Key Outcomes:

- Delivered a visually appealing, user-centered Spanish website.
- Strengthened the brand's digital presence in the wellness market.
- Enhanced client engagement through a clean and welcoming interface.
- Provided a scalable base for future service additions and online booking.

## Fitness - 2023

### Overview:

Developed a modern gym and fitness website using WordPress and Elementor, designed to showcase training programs, memberships, and trainers with a bold, energetic aesthetic. (This project was made to learn Flexbox feature of elementor)

### Contributions:

- Designed an engaging homepage emphasizing motivation and transformation.
- Built dynamic sections for classes, trainers, and pricing plans.
- Integrated contact forms and membership inquiry system.
- Ensured full responsiveness across mobile and desktop.
- Optimized site speed and visuals for smooth user experience.
- Applied SEO best practices for fitness-related keywords.
- Configured secure hosting and SSL for reliable access.

# ABOUT MY WORK

Fun fact – this CV shows less than **30%** of the websites I've built and not even **20%** of the total projects I've completed!

Over the past **five** years, I've developed more than **50** websites, trained people in digital safety, created custom IT solutions, and applied cybersecurity practices to protect organizations and enhance performance.

My experience combines web development, design, and system security, all focused on building smart, efficient, and secure digital products.

Want to see more of my work – including my workshops, designs, cybersecurity projects, and full web portfolio?
